

Newsletter #5

SEPTEMBER 2024

PROJECT PROGRESS AND KEY UPDATES

As we progress with the project, we're excited to update you on the ongoing collaborative work between our partners and preparations for important upcoming milestones.

With dedicated efforts from each organization, we're trying to organise the Info Days. These events aim to share the ideas of the project and what comes next to the participants from the respective countries.

RECENT INSIGHTS

The Virtual Academy is an online space where youth workers, educators, and professors can access professional development resources, participate in virtual exchange programs, and engage with peers across borders. By using interactive learning methods, this platform will let participants develop digital skills. In close collaboration with our project partners, we are working diligently to ensure that the platform meets the diverse needs. From developing user-friendly interfaces to ensuring language support and data security, our teams are bringing together technical expertise to create a world-class virtual learning environment.

GENERAL INFORMATION

The SWITCH project, aligned with Erasmus+ priorities, aims to foster intercultural dialogue and enhance soft skills among young people and youth organizations across EU-associated and non-associated countries. Our goals include bridging gaps for disadvantaged youth, preventing digital and cultural risks, and developing skills through innovative online methodologies.

Thank you for your dedication and collaboration. For any questions or additional information, please reach out to the project coordinators.
