## PROJECT PROGRESS AND KEY UPDATES

In December, the SWITCH project entered a reflective and strategic planning phase. While formal training sessions paused for the holiday season, our consortium partners have been working closely to design the roadmap for the upcoming months. We are focusing on transitioning from our recent modules on leadership and decision-making into practical, hands-on activities for the new year. Our primary focus for early 2026 will be the expansion of our Upskilling Labs and the further development of the Virtual Academy. Partners are currently synchronizing schedules to introduce new intercultural exchange opportunities that will allow

participants to apply their professional branding and critical thinking skills in real-world digital environments.

As we close out the year, the SWITCH team wishes all our participants, partners, and stakeholders a restful holiday season. We are grateful for the dedication shown in 2025 and look forward to "switching" back into high gear this January!

DECEMBER 2025

## GENERAL INFORMATION

The SWITCH project, aligned with Erasmus+ priorities, aims to foster intercultural dialogue and enhance soft skills among young people and youth organizations across EU-associated and non-associated countries. Our goals include bridging gaps for disadvantaged youth, preventing digital and cultural risks, and developing skills through innovative online methodologies.

Thank you for your dedication and collaboration. For any questions or additional information, please reach out to the project coordinators.
