

February 2025

PRESS RELEASE #4

SWITCH Opens Groundbreaking Virtual Academy Sessions and Celebrates Inauguration Day, Leading the Future of Digital Education

SWITCH is proud to announce a series of initiatives that have marked the recent months. In February 2025, the project celebrated its Inauguration Day—a landmark open online event held on February 24th—which set the stage for the dynamic Virtual Academy sessions. These sessions have been instrumental in merging theoretical insights with practical applications in areas such as AI's role in leadership development and the integration of advanced digital tools in teaching. Participants from diverse cultural backgrounds engaged in vibrant intercultural dialogues.

In the previous months, our partners organised the Info Day events in their respective countries. These presentations provided local communities with an in-depth overview of the SWITCH project, showing its vision, unique initiatives, and the benefits of collaborative digital education.

As the project moves forward, we remain committed to providing innovative educational practices and stay open to inclusive, cross-cultural dialogue. Our achievements—focused on the Inauguration Day celebration and the success of our Virtual Academy sessions—stand as proof of our dedication to transforming education in an increasingly interconnected world.

We appreciate everyone's efforts and collaboration. For any questions or further clarification, feel free to reach out to the project coordinators.
